

Fishing

at the Normaway

Margaree is famous for its salmon fishing but it is also popular for trout fishing. A copy of the salmon regulations is available at the Front Desk. The Salmon season begins June 1 and runs to Oct. 15 in some parts of Margaree and to Oct. 31 in most parts.

We sell Margaree Salmon maps and fishing flies. We rent both fishing rods (with reels) and waders at \$10 each per day. We offer fishing packages and can arrange for fishing guides.

A general fishing licence is valid for the trout season which runs from April 15 to Sept. 30 in Margaree. In September trout is hook and release. Daily trout licences are available.

Salmon licences are below. Season passes are available for non-residents. Under 13 residents have inexpensive options. Non-residents need a guide for hunting but not for fishing.

Fishing in the Cape Breton Highlands Trout Management Area is year-round. Fishing is also possible in the National Park.

Guiding rates can vary and may involve extra charges for additional persons or equipment. Typical rates are \$100 for a half-day.
