

Hiking

At the Normaway

There are maps at the front desk for the two trails on our own property. The Burton Loop on the opposite side of the Egypt Road is moderately challenging and involves some hilly terrain. The Hangar Loop is much flatter and begins near our red Music Barn. At times, waterproof footwear is an asset.

The Normaway is well situated for hiking in and south of Margaree and in the National Park. The Skyline Trail, north of Cheticamp, is the most popular. The Acadian Trail is accessible directly from the Park Visitors Centre and is best done counter-clockwise, saving the panoramic view of Cheticamp for near the end.
